YOUTH TOUR INVESTS IN YOUNG LEADERS

BY SHELLY YORK

In June, 38 Iowa students punched their tickets to the once-in-a-lifetime, whirlwind tour of our nation's capital that's known as Iowa Youth Tour!

The program is

designed for students to learn about electric cooperatives, American history and U.S. government and walk away with a greater understanding of their roles as American citizens.

Since its beginnings in 1958, Youth Tour has become a longstanding tradition of Iowa's locally owned electric cooperatives. It's a living example of the cooperative difference – which includes giving back to communities and investing in the next generation of leaders.

We put the “tour” in Youth Tour

When the Iowa Youth Tour group arrived in D.C. on June 18, we hit the ground running. Moving as efficiently as a group of students and co-op chaperones can, we boarded and unloaded the bus at Washington's top stops to see everything possible during our time in the district. Our stops included the National Mall, various memorials and monuments, The White House, Mount Vernon, Ford's Theatre, the U.S. Capitol and many more.

Cooperative business model at work

Students also ran their own cooperative called the D.C. Munchie Cooperative, which sold reasonably priced snacks to its members. All students and chaperones became members of the cooperative. As members, they elected a board of directors, and the directors hired a co-op CEO/manager. The board and CEO met every morning over breakfast to discuss and plan activities related to the co-op.

Prior to the trip, students were asked about what type of snacks they would

like to see the cooperative sell. Based on their feedback, the inventory for the cooperative was determined.

At the end of the week, the cooperative held an annual meeting and reported there was a margin. The membership fee and patronage were returned to each member.

Honoring our heroes

Another highlight of the trip is the opportunity for some of our students to lay a wreath at the Tomb of the Unknown Soldier. This year, Tristan Blair (Calhoun County Electric Cooperative Association), Owen Bell (Southern Iowa Electric Cooperative), Veronica Schechinger (Nishnabotna Valley REC) and Lizzy Kremer (East-Central Iowa REC) represented the Iowa Youth Tour at this ceremony.

Thankful for the memories

As the trip came to its inevitable end, the group reflected on the fact that we started our adventure as strangers but ended as one Iowa Youth Tour family. We are thankful for our time together and especially for the cooperatives that invested in these young leaders.

Our world is a much better place because we had this experience together!

You can see highlights from the 2023 Iowa Youth Tour by searching for “Iowa Youth Tour” on Facebook, Instagram, TikTok, Snapchat and Twitter. We also posted daily updates on www.iowayouthtour.blogspot.com.

Shelly York is the Youth Tour director for the Iowa Association of Electric Cooperatives.

EDITOR'S CHOICE CONTEST

Win an Amazon Fire TV!

This Amazon Fire 32-inch Smart TV with Fire TV Alexa Voice Remote allows you to stream live TV without cable. Bring movies and shows to life in HD 720p resolution, with support for HDR 10, HLG and Dolby Digital Audio.

Visit our website and win!

Enter this month's contest by visiting www.ieclmagazine.com no later than Aug. 31. You must be a member of one of Iowa's electric cooperatives to win. There's no obligation associated with entering, we don't share entrant information with anyone and multiple entries from the same account will be disqualified. The winner of the LED String Lights from the June issue was Jennifer Kohorst, Access Energy Cooperative.

ENTER ONLINE BY AUG. 31

75 YEARS AGO IN RURAL IOWA

In 1948, Iowa Association of Electric Cooperatives began publishing a statewide newspaper for member-consumers, titled *IRECA News*. Excerpts from the following article appeared in the July 1948 edition (verbatim content from our archives):

Your Wiring Is Like Your Teeth – It Needs Inspection Every So Often

Would you wait until a tooth begins to ache before you go to your dentist?

Many people do but they usually regret their delay.

After a long, expensive and sometimes painful session with cavities, drills, Novocain and sometimes “store teeth” the people who waited frequently become strong advocates of the “... see your dentist twice a year...” theory.

Rural electrification experts point out that it is just as logical to have your electrical system inspected regularly as it is to have your teeth checked.

“Re-inspection”

Technically this electrical once-over is known as “re-inspection.” Many Iowa cooperatives are now conducting such programs.

Re-inspections frequently show up potential fire hazards which, if not corrected, might lead to expensive losses in home, barn or other buildings.

MEET THE 2023 IOWA YOUTH LEADERSHIP COUNCIL REPRESENTATIVE

Olivia Marti, representing Allamakee-Clayton Electric Cooperative on the 2023 Iowa Youth Tour, was selected as the 2023 Iowa Youth Leadership Council (YLC) representative.

This accomplished high school senior was also named the CEO of the Iowa Youth Tour’s Snack Cooperative during the trip.

As part of her duties as the Iowa YLC representative, Marti will:

- Meet with the YLC group virtually between August and March
- Prepare and deliver a speech to her co-op board by mid-January, which will be recorded and submitted to the National Rural Electric Cooperative Association (NRECA) for national YLC spokesperson consideration
- Deliver her speech at the Iowa Association of Electric Cooperatives Annual Meeting in December
- Attend NRECA’s 2024 PowerXchange in San Antonio
- Receive a \$1,000 college scholarship from the Pioneer Trust Foundation

Marti says, “After spending a week in Washington, D.C., representing our great home state of Iowa, I am more than honored to be the chosen individual to continue this task in Texas this coming spring,” Marti says. “I’m excited to meet fellow youth from across our nation to support the future of cooperatives together.”

Some of her many accomplishments include the following:

- Norman E. Borlaug Scholar
- Larry E. Kruse Scholar
- National Honor Society
- U.S. Department of State Brazilian Ambassador
- Congress Bundestag German Ambassador
- Carnegie Mellon SAMS Scholar Program
- Herbert Hoover Uncommon Student Award Recipient
- Term in the Iowa Youth Congress
- FFA Chapter Historian, state honors every year
- Future Business Leaders of America State President Finalist
- St. John’s Youth Bell Choir member
- Website Developer for Iowa Historical Society in Waterville
- Robey Memorial Library Volunteer and Teen Advisory Board President
- Volunteer at Good Samaritan to help COVID efforts
- Allamakee County Fair Aid
- Youth Voluntary Firefighter
- Middle School Mentor and Homework Aid
- Spanish Translation Aid for agriculture classes at Waterville High School

WHAT LURKS UNDER THE DIRT: CALL BEFORE YOU DIG

Aug. 11 is National Safe Digging Day, also known as 811 Day. The observance reminds anyone considering an outdoor project that breaks ground to get underground utilities marked in advance. Having them marked is free and easy to do; simply call 811 at least two full business days prior to starting a digging project. While state laws vary, utility companies generally have a few days to respond to your request.

If you don't take the time to call before you dig, you could become the person who digs in an unmarked yard and strikes an underground line every nine minutes. No one wants to be that person.

People are tempted to skip calling in advance because they think striking a buried line will not happen to them. They assume that they will 'not dig too deep' or that they will 'be careful.' However, underground lines are unyielding. Their path is unpredictable and hitting one can happen with one strike of a shovel or other tool.

You might think you are just installing a mailbox or just using a post-hole digger. However, underground utility

lines could be anywhere, and they also shift over time. They should always be marked in advance because some can be found only a few inches below the surface.

Striking a single buried utility line can cause injury, repair costs, penalties and inconvenient outages. Every project, big or small, requires advance notification to 811. To start the underground utility marking process, call 811 or go to Iowa's 811 center website at IowaOneCall.com.

After submitting a request, underground lines will be marked by their respective utilities; however, locators do not mark private lines such as service to outbuildings, underground sprinkler systems or a gas line to a grill, for example. Private lines are the responsibility of the homeowner.

If you are only digging in a small area of your yard, you can outline the area in white spray paint or with white flags to ensure that only that part of your yard will be located and marked. White flags are available at home improvement stores.

Can You Dig It?

- An underground utility line is **damaged once every 9 minutes** because someone didn't call 811.
- Call 811, the "Call Before You Dig Number," at least **2 business days** prior to digging.
- 811 locators **do not detect** underground sprinkler systems, invisible fences, data communication systems, private water systems, or gas piping to a garage.
- Even if you have previously had underground utilities marked, utilities can **shift**, so it's best to call before starting a new project.
- Once **all of your utilities** have been located, then you can start your digging project!

RECEIVE \$100 FOR A PUBLISHED COVER PHOTO

We're always looking for stunning images for the cover of *Iowa Electric Cooperative Living* magazine. If we select your photo for a cover, we'll award you with \$100. The photos must be clear, of an Iowa place served by an electric cooperative and in high resolution. To be considered, email photos to editor@ieclmagazine.com with "Cover Submission" in the subject line.

EDUCATING AND DEVELOPING TOMORROW'S COOPERATIVE LEADERS

I loved the trip so much. It was amazing to meet people from all over Iowa and the nation. I enjoyed learning more about how a cooperative is run and the time and planning that goes into it. We also learned so much about our nation's capital and America's history. Overall, this was an amazing experience, and I'm so thankful that I was given this opportunity.

Rheanne Feilmeier
Raccoon Valley Electric Cooperative

Youth Tour is an awesome opportunity to make new friendships and experience a fun and memorable trip.

Veronica Schechinger
Nishnabotna Valley REC

BY ANN FOSTER THELEN

Going on Youth Tour was a great honor. It was fun to meet new friends and better understand cooperatives through the example of our snack co-op. Seeing all the sights of Washington, D.C., provided memories to last a lifetime. It was an eye-opening experience and humbling to see what people have given for our country.

Colton Zupke
Butler County REC

I loved getting to see every part of Iowa represented through Youth Tour participants. The principles, aspirations and attitudes of the students truly showed the beautiful and kind nature of Iowa as a whole. One of my favorite experiences was the boat tour when we saw so many scenic views of the area while connecting with students from other states. It was truly an honor to represent Iowa and our community in the nation's capital!

Olivia Marti
Allamakee-Clayton Electric Cooperative

To discover and experience the heart of our nation at work was amazing. The sights and sounds, the feelings and emotions will be something I will never forget. To do all these things with an amazing group of peers and leaders truly made it a trip of a lifetime.

Shelby Brosh
Iowa Lakes Electric Cooperative

To learn more about the group's daily adventures, visit the Iowa Youth Tour Blog at iowayouthtour.blogspot.com.

MARK YOUR CALENDAR!

2024 Youth Tour
June 15-21, 2024

www.iowayouthtour.com

The formal Youth Day program included Mat Kilgore, a line foreman at Iowa Lakes Electric Cooperative and 2019 National Rural Electric Cooperative Association International volunteer, and motivational speaker Mike Schlappi, a wheelchair basketball player who has appeared in four consecutive summer Paralympic Games.

2023 PARTICIPANTS

- Alexis Wagner** – Access Energy Cooperative

- Clay Morse** – TIP REC
- Silas Walston** – United Electric Cooperative
- Shay Hamblen** – Western Iowa Power Cooperative
- Lauren Jones** – Western Iowa Power Cooperative

Who knew you could get so close in just one week! My favorite memory is when we were all together and we would all just laugh. And if you've never been out of the state of Iowa this is your chance!

Isabelle Brumm
Heartland Power Cooperative

Iowa's locally owned electric cooperatives have been sending high school students to Washington, D.C., since 1958! This year, 38 high school students and six chaperones representing Iowa's electric cooperatives journeyed to the nation's capital in June for the National Rural Electric Cooperative Association's 2023 National Electric Youth Tour.

On the weeklong tour, students learned about electric cooperatives, American history and U.S. government and walked away with a greater understanding of their role as an American citizen. They participated in National Youth Day, visited with their elected legislators and explored the sights around the nation's capital.

Earlier in the year, students applied for the trip through their local electric cooperatives. The Iowa students joined students from co-ops around the country for the national Youth Tour.

SOME OF THE THINGS STUDENTS DID AND SAW ON THIS YEAR'S YOUTH TOUR:

- » Washington Monument
- » World War II Memorial
- » Albert Einstein Memorial
- » Vietnam Veterans Memorial
- » The National Mall
- » Holocaust Memorial
- » Ford's Theater
- » Korean War Veterans Memorial
- » Lincoln Memorial
- » Steven F. Udvar-Hazy Center
- » Franklin Delano Roosevelt Memorial
- » Boat cruise on the Potomac River
- » Mount Vernon
- » Iwo Jima Sunset Parade
- » White House
- » U.S. Capitol

DELICIOUS Dessert RECIPES

TASTY CHERRY PIE

- 1 can cherry pie filling
- 1 9-inch pie crust
- 2 eggs, beaten
- ½ cup sugar
- ¼ cup butter, melted
- 2 teaspoons vanilla
- ½ cup flaked coconut

Place cherry pie filling in unbaked 9-inch pie crust. Bake at 350 degrees F for 30 minutes and remove from oven. Combine remaining ingredients and pour evenly over pie. Return to oven and bake 25-30 minutes until topping is golden brown.

**Dee Ann Paulsrud • Danbury
North West Rural Electric Cooperative**

BANANA CREAM DESSERT

- 16 graham cracker squares, crushed finely
- ¼ cup butter, melted
- 3 tablespoons sugar
- 1 cup sour cream
- ½ cup cold milk
- 1 3.4-ounce package vanilla instant pudding
- 1 12-ounce container whipped topping, thawed
- 3 medium bananas, sliced

In medium bowl, mix graham cracker crumbs, melted butter and sugar. Pat into bottom of an 8- or 9-inch square dish. Whisk sour cream and milk together. Sour cream can be substituted with plain Greek yogurt. Add pudding mix and whisk until pudding is dissolved. Fold in whipped topping. Spread half the pudding mixture over graham cracker crust. Cover with sliced bananas and spread remaining pudding mixture on top of bananas. Chill. Serves 9

**Richard Claeys • Belle Plaine
T.I.P. Rural Electric Cooperative**

FIVE-MINUTE BROWNIE

- ⅓ cup butter, softened
- 1 cup sugar
- 2 eggs, beaten
- 1 teaspoon vanilla
- ½ teaspoon baking powder
- ¼ cup cocoa
- 4 tablespoons hot chocolate mix frosting, optional
- vanilla ice cream

Place butter in glass pan and microwave until melted. Mix sugar, eggs, vanilla, baking powder, cocoa and hot chocolate mix together, then pour into glass pan. Microwave for 5 minutes. Cool and frost, if desired, and serve with ice cream.

**Shirley Mattson • Tama
T.I.P. Rural Electric Cooperative**

GOOSEBERRY OR RHUBARB COBLER

- 3-4 cups gooseberries or rhubarb, cut
- 1¾ cups sugar, divided
- 3 tablespoons butter
- ½ cup milk
- 1 cup flour, sifted
- 1 teaspoon baking powder
- ¼ teaspoon salt
- 1 tablespoon corn starch
- 1 cup boiling water

Place cut gooseberries or rhubarb in a greased 9x12-inch baking pan. Cream ¾ cup sugar and butter. Add milk, flour, baking powder and salt to make a batter. Pour over fruit. Combine 1 cup sugar and corn starch. Sprinkle over batter. Pour boiling water over all. Bake at 375 degrees F for 1 hour.

**Janice Shepherd • Lenox
Southwest Iowa Rural Electric Cooperative**

CHOCOLATE BROWNIE TRIFLE

- 1 package brownie mix for 8x8-inch pan
- 1 5.1-ounce package chocolate instant pudding mix
- 2 cups milk
- 1 16-ounce container whipped topping, divided
- 1 chocolate bar, optional for garnish

Prepare brownies according to package directions (you can substitute brownies made from scratch). Cool completely. Split the prepared brownies into thirds. Cut one third into little squares and set aside. Crumble the remaining two thirds but keep separate for the layers.

Mix instant pudding according to package directions using only 2 cups milk. Carefully fold in half of the whipped topping into prepared pudding. Layer a third of the crumbled brownie into the bottom of a trifle dish. Next, layer half of the pudding mixture over the brownie. Then, layer half of the remaining cool whip over the pudding mixture. Repeat the layers once more. Top the trifle with the little brownie squares.

Using a vegetable peeler, peel chocolate shavings over the top of the trifle. Keep refrigerated until ready to serve.
Serves 15-20

Joyce Maassen • Boyden
North West Rural Electric Cooperative

FRESH STRAWBERRIES AND CREAM CAKE

- 1 cup butter, softened
- 2 $\frac{2}{3}$ cups sugar, divided
- 3 large eggs
- 3 tablespoons plus 1 teaspoon lemon juice, divided
- 1 teaspoon vanilla
- 2 $\frac{1}{2}$ cups cake flour
- 2 tablespoons strawberry Jell-O mix
- $\frac{1}{2}$ teaspoon baking soda
- $\frac{1}{4}$ teaspoon salt
- 1 cup buttermilk
- 1 $\frac{1}{2}$ cup fresh strawberries, chopped, divided
- 8 ounces cream cheese, softened
- 1 $\frac{1}{2}$ cups heavy cream

Beat butter and 2 cups sugar together for 4-5 minutes, until fluffy. Add eggs one at a time. Add 1 teaspoon lemon juice and vanilla. Beat together and set aside. Mix cake flour, Jell-O, baking soda and salt. Mix the flour mixture into the butter and egg mixture, alternating with the buttermilk. Begin and end with flour. Beat on low until blended. Stir in $\frac{2}{3}$ cup strawberries. Pour into a greased and floured 9x13-inch cake pan (or 2 10-inch cake pans lined with sprayed parchment paper). Bake at 350 degrees F for 30-40 minutes until done and let cool.

Make a frosting by beating cream cheese and $\frac{1}{2}$ cup sugar until smooth. Add $\frac{2}{3}$ cup strawberries and set aside. Beat heavy cream and 3 tablespoons lemon juice. Add $\frac{1}{2}$ cup sugar and beat until stiff peaks form. Fold whipped cream into cream cheese mixture and frost cake. Refrigerate cake.

Dode Westendorf • Waverly
Butler County Rural Electric Cooperative

SUPER MOIST RHUBARB SPICE CAKE

- 1 cup sour cream
- 2 cups sugar
- 2 eggs beaten
- 2 $\frac{1}{2}$ cups flour
- $\frac{1}{2}$ teaspoon baking soda
- 4 cups rhubarb, cut
- sugar cinnamon mixture ($\frac{3}{4}$ sugar to $\frac{1}{4}$ cinnamon)

Mix sour cream, sugar and eggs. Add flour and baking soda. Mix well, then stir in rhubarb. Spread mixture into a 9x13-inch pan. Sprinkle sugar cinnamon over top. Bake at 350 degrees F for 25 minutes or until done.

Marilyn Halbur • Carroll
Raccoon Valley Electric Cooperative

MIXED FRUIT COBBLER

- 4 medium ripe apricots
- 2 large ripe nectarines
- 2 large ripe peaches
- $\frac{2}{3}$ cup sugar, divided
- 2 tablespoons corn starch
- 1 tablespoon cold butter, cut into small pieces
- 1 cup all-purpose flour
- $\frac{1}{2}$ cup cornmeal
- 2 teaspoons baking powder
- $\frac{1}{4}$ teaspoon ground cinnamon
- $\frac{1}{8}$ teaspoon salt
- $\frac{1}{2}$ cup milk
- $\frac{1}{4}$ cup vegetable oil

Peel and slice apricots, nectarines and peaches. In bowl, combine fruit with $\frac{1}{3}$ cup sugar and cornstarch. Spoon into a greased 8-inch square baking dish and dot with butter. In another bowl, combine flour, cornmeal, baking powder, cinnamon, salt and remaining sugar. Stir in milk and oil just until moistened. Spread over fruit mixture. Bake at 375 degrees F for 35-40 minutes or until bubbly and golden brown.

SHINE THE LIGHT CONTEST NOMINEES ANNOUNCED

The Touchstone Energy® Cooperatives of Iowa are driven by our commitment to community.

To celebrate local volunteers, the Shine the Light contest returned for a third year and received 126 volunteer nominations during June, an 85% increase from last year! Employees and member-consumers of Iowa's locally owned electric cooperatives were invited to nominate someone who makes a positive difference in their community.

Three winners will be awarded a \$2,500 donation to their charity or community organization of choice and will be featured in next month's issue. Please join us in celebrating these nominees for their outstanding commitment to community. Learn more at www.IowaShineTheLight.com.

2023 SHINE THE LIGHT NOMINEES

Rodney Anderson from New Sharon was nominated by **Susan Anderson of Pella Cooperative Electric Association** for his work with **Friends of Mahaska County Conservation**.

Marcia Bachmann from Denison was nominated by **Richard Meyer and Clayton Ullerich of Western Iowa Power Cooperative** for her work with **CCHappycats, Inc.**

Darron Baker from Eagle Grove was nominated by **Donavon Baker of Prairie Energy Cooperative** for his work with **Brushy Creek Area Honor Flight**.

Diane Bales from Bloomfield was nominated by **Joye Lore-Lawson of Southern Iowa Electric Cooperative** for her work with **Davis County Tourism Corporation**.

Sherry Bousk from Decorah was nominated by **Holly Kanengietter of MiEnergy Cooperative** for her work with **WinnMed Foundation**.

Shirley Bowman from Webster City was nominated by **Joe Sherman of Webster City Municipal** for her work with **Christians in Action**.

Caroline Bredekamp from Spragueville was nominated by **Don Wentworth of Maquoketa Valley Electric Cooperative** for her work with **Northbend Community Center**.

Dale Breuer from Estherville was nominated by **Brooke Henriksen of Iowa Lakes Electric Cooperative** for his work with **Kiwanis Club of Estherville**.

The Butler County Fair Board from Allison was nominated by **Rhonda Marshall of Butler County Rural Electric Cooperative** for their work with **Butler County Fair Association**.

Raejean Chapman from Clarion was nominated by **Erin Baker and Heather Evje of Prairie Energy Cooperative** for her work with **Dirt Diggers**.

Kirby Christensen from McCallsburg was nominated by **Kathy Nelson of Midland Power Cooperative** for his work with **American Legion Post #334**.

Greg Christianson from Baxter was nominated by **Natalie Moorman of Consumers Energy** for his work with **Baxter American Legion**.

Larry Daft from Colfax was nominated by **Kevin Williams of Grundy County Rural Electric Cooperative** for his work with **Colfax Historical Society**.

Jim Danzl from Humboldt was nominated by **Jaclyn Lerdal of Midland Power Cooperative** for his work with **Upper Des Moines Opportunity Food Pantry**.

Michele Dettmann from Sac City was nominated by **Pat Laursen of Raccoon Valley Electric Cooperative** for her work with **Swaddling Clothes**.

Randy Dunfee from Murray was nominated by **Venita Escher of Clarke Electric Cooperative, Inc.** for his work with **Murray Church of Christ**.

Gail Eischeid from Lake View was nominated by **Rhonda McQuigg of Raccoon Valley Electric Cooperative** for her work with **East Sac County Food Pantry**.

Megan Farrell from Grinnell was nominated by **Lindsey Starrett of Pella Cooperative Electric Association** for her work with **Read 2 Lead**.

Jarrod Fischer from Wallingford was nominated by **Connie Hopper of Iowa Lakes Electric Cooperative** for his work with **Wallingford Fire and Ambulance**.

Ann Gemberling from Lohrville was nominated by **Linda Schmitt of Calhoun County Electric Cooperative Association** for her work with **Lohrville Visions**.

Sue Gradoville from Boone was nominated by **Joann Utth of Midland Power Cooperative** for her work with **Boone Hope Foundation**.

Ron Halbur from Manning was nominated by **Karen Kienast of Western Iowa Power Cooperative** for his work with **Manning Community Foundation**.

Jane Hasek from Harpers Ferry was nominated by **Marita Clark of Allamakee-Clayton Electric Cooperative** for her work with **Harpers Ferry Area Heritage Society**.

Nancy Hering from Oakland was nominated by **Doris Bane, Layna Bentley, Julie Hering Kent and Brenda Windmuller of Nishnabotna Valley Rural Electric Cooperative** for her work with **Bidwell Riverside Food Pantry**.

Theresa Hildreth from Rockwell City was nominated by **Julie Clayton of Raccoon Valley Electric Cooperative** for her work with **Stewart Memorial Community Hospital Foundation**.

Samantha Holm from Sumner was nominated by **Amanda Petersen of Butler County Rural Electric Cooperative** for her work with **Royal Family Kids' Camp Northeast Iowa**.

Betty Hoogendoorn from Rock Valley was nominated by **Jody Folkens of Lyon Rural Electric Cooperative and by Mike Haverhals, Tamara Haverhals, Darwin Hoogendoorn, Kyle Hoogendoorn, Cierra Overweg and Kristi Tiedeman of North West Rural Electric Cooperative** for her work with **Hope Haven**.

Joyce Hornstein from Huxley was nominated by **Jean Saveraid of Greenfield Municipal Utilities** for her work with **Ballard Community Performing Arts Association**.

Ruth Jennings from Williamsburg was nominated by **Michelle Jennings of T.I.P. Rural Electric Cooperative** for her work with **Mount Mercy Dance Marathon**.

Angie Johnson from Rockford was nominated by **Larry Hicok of Butler County Rural Electric Cooperative** for her work with **Grow Rockford Together Association**.

Geri Johnson from Onawa was nominated by **Arthur Weston of Western Iowa Power Cooperative** for her work with **Food 4 You, Inc.**

Judith Johnson from Estherville was nominated by **Elizabeth Harris of Iowa Lakes Electric Cooperative** for her work with **VFW Post 3388**.

Kathryn Johnson from Afton was nominated by **Retta Ripperger of Farmers Electric Cooperative, Inc.** for her work with **Afton Development Corporation**.

Jerry Jors from Ricketts was nominated by **Randy Bohlmann of Western Iowa Power Cooperative** for his work with **Brushy Creek Area Honor Flight**.

Bonnie Kauzlarich from Centerville was nominated by **Mary Sue Zaputil of Chariton Valley Electric Cooperative, Inc.** for her work with **The Lord's Cupboard**.

Danielle Kruse from Hartley was nominated by **Jamie Stoll of North West Rural Electric Cooperative** for her work with **Kids Kampus**.

Katie Kruse from Carroll was nominated by **David Onken of Raccoon Valley Electric Cooperative** for her work with **Carroll High School Foundation**.

Sally Kuhrts from Galva was nominated by **Cindy Glienke of Iowa Lakes Electric Cooperative** for her work with **Orphan Grain Train**.

Jim Langhus from Monona was nominated by **Mildred Stewart of Allamakee-Clayton Electric Cooperative** for his work with **Monona Butterfly Gardens & Trails**.

Bobbie Lieser from Tipton was nominated by **Alice Whitlatch of Eastern Iowa Light & Power Cooperative** for her work with **Big Creek Missions**.

Erica Lindaman from Clarion was nominated by **Troy and Jenny Askelsen, Emily Bernhardt, Mark Bernhardt, Janet Blackman, Mitchell Brandt, Chad Chapman, Tim and Becky Chipman, Gina Cleveland, Mary Davis, Kathy Deimerly, Robert Deimerly, Belva German, Brittany Howieson, Mary Kallem, Roger Kallem, Mary Lager, Dennis Mraz, Jo Olson, Sarah Olson, Brian Ring, Knuton Severson, Darla Tweeten and Kathy Whitver of Prairie Energy Cooperative** for her work with **Gift of Giving**; and by **Matthew Cook of Prairie Energy Cooperative** for her work with **Riding for a Reason** in memory of **Brandon Lee**.

Charlotte Lungsford from Spirit Lake was nominated by **Nola Jensen of Iowa Lakes Electric Cooperative** for her work with **Cherished Again**.

Lisa and Mike McCarty from Ames were nominated by **Sean Dowling and Frederick Gulden of Midland Power Cooperative** for their work with **All Aboard for Kids**.

Mike McCarty from Carroll was nominated by **Brian and Tricia Wolterman of Raccoon Valley Electric Cooperative** for his work with **Mission Honduras**.

Jeriann McLaughlin from Huxley was nominated by **Steve Quick of Consumers Energy** for her work with **Ballard Community Clothing and Food Pantry**.

Elizabeth McOllough from Clarion was nominated by **Barbara Moore of Prairie Energy Cooperative** for her work with **CGD Community Corral**.

Bill Meyer from Fredericksburg was nominated by **Nancy Meyer of Butler County Rural Electric Cooperative** for his work with **Fredericksburg Lions Club**.

Caleb Meyer from Aplington was nominated by **Katie LaBree of Butler County Rural Electric Cooperative** for his work with **Feed My Starving Children**.

Carolyn Mohlis from Tripoli was nominated by **Anita Destival, Jodi Risse, Barb Schwake, Ken Shonka, Sandy Tagtow & Joanna VanDeBerg of Butler County Rural Electric Cooperative** for her work with **Helping Hands Clothing Closet**.

Mike Moran from Churdan was nominated by **Wade Gemberling of Calhoun County Electric Cooperative Association** for his work with **Lohrville Visions**.

Leon Muhlbauer from Glidden was nominated by **Denise Muhlbauer of Raccoon Valley Electric Cooperative** for his work with **Carroll Lions Club**.

Cindy Murphy from Pocahontas was nominated by **JoAnn Poduska of Iowa Lakes Electric Cooperative** for her work with **Pocahontas Community Foundation**.

Shannon Neff-Muell from Guthrie Center was nominated by **Laura Robson of Guthrie County Rural Electric Cooperative Association** for her work with **Little Charger Early Learning Center**.

Bev Nielsen from Columbus Junction was nominated by **Ken Purdy of Eastern Iowa Light & Power Cooperative** for her work with **Columbus United Fund**.

Sandra Olesen from Graettinger was nominated by **Barbara Brennan of Iowa Lakes Electric Cooperative** for her work with **Unity Lutheran Ministries Food Pantry**.

Ruth Pickle from Moorhead was nominated by **ToNetta Englehardt of Onawa Municipal** for her work with **Moorhead Cultural Center**.

Teresa Poland from Clarksville was nominated by **Paula Hoodjer of Butler County Rural Electric Cooperative** for her work with **Clarksville Food Pantry**.

Linda Price was nominated by **Brett Fuelberth of Iowa Lakes Electric Cooperative** for her work with **Food Bank of Iowa**.

Mike and Sandy Ralya from Afton were nominated by **Laura Tallmon of Clarke Electric Cooperative, Inc.** for their work with **Afton Development Corporation**.

Mady Reed from Sumner was nominated by **Sumner Dental Care of Sumner Municipal** for her work with **Sumner Daycare and Learning Center, Inc.**

Matt Riedell from Carroll was nominated by **Sean Kleespies of Raccoon Valley Electric Cooperative** for his work with **Lake View Blackhawk Men's Club**.

Dianne Riley from Osceola was nominated by **Joan Peterson of Clarke Electric Cooperative, Inc.** for her work with **Toys for Christmas**.

Mary Sauter from Albia was nominated by **Brian Lindberg of Chariton Valley Electric Cooperative, Inc.** for her work with **Pay It Forward Christmas Charity**.

Lana Schaefer from Rockwell was nominated by **Bev Peters of Franklin Rural Electric Cooperative** for her work with **Rockwell Public Library**.

Heather Schmidt from Webster was nominated by **Heather Fischer of T.I.P. Rural Electric Cooperative** for her work with **Tri-County Food Bank**.

Caleb Sinnwell from Nashua was nominated by **Heather Sinnwell of Butler County Rural Electric Cooperative** for his work with **Nashua VFW Post 6792**.

TEACH YOUR CHILDREN WELL

BY MIRANDA BOUTELLE

Educating kids on energy use and costs can help engage them in your family's goal to use less electricity. They can be electric conservation champions if you ask them to help. Here are some ways you can teach kids to use less electricity.

A real-life math lesson

Show your kids how to read the electric bill. Focus on what you can control: kilowatt-hour use. If they are old enough, teach them how to do the math. You can calculate (kWh) use by multiplying wattage by hours used and dividing by 1,000. Multiply this by the kWh rate on your electric bill to estimate how much you spend on power for each household appliance.

For example, if you have a space heater that uses 1,500 watts and is on for four hours a day for a month, it uses 180 kWh. With an average kWh rate of \$0.137 in the U.S., the space heater costs about \$25 a month to operate. That same space heater costs about \$74 a month if it is on for 12 hours per day. Your kWh rate may be lower or higher depending on where you live.

For household appliance wattage, look for the amount stamped on the bottom, back or nameplate. If the nameplate does not include wattage, it can be calculated by multiplying the voltage by the amperage.

Behavior changes add up

To teach children the impact of saving energy, have them help you conserve with the household's most significant energy-consuming appliances: heating and cooling. Teach kids to dress appropriately for the seasons, even indoors, which allows you to set the thermostat to balance comfort and savings.

You can also leave the house during the hottest times of the day to go for a swim or play outside. Before you go, nudge the thermostat up a few degrees to avoid wasted energy

cooling an empty house. Turn off fans when you leave a room.

The second-highest use of electricity is typically the electric water heater. Use a shower timer so kids can monitor how long they are in the shower. Teach them to wash their clothes with cold water.

Other ways to save include turning off the lights when you leave the room. Powering down gaming stations and computers is another way to save. In the kitchen, keep the refrigerator door shut. Teach kids to take a quick peek and shut the door while they think about their snack options.

A family conservation challenge

After teaching your kids about electric bills and showing them how to save electricity, make a game out of your family's energy conservation efforts. Challenge the family to use less energy than last month or the same month the previous year. Use the savings to reward them with a treat or let the winner pick the game night activity or film for family movie night.

Miranda Boutelle writes on energy efficiency topics for the National Rural Electric Cooperative Association, the national trade association representing more than 900 electric co-ops.

EV CHARGING SAFETY TIPS

BY JENNAH DENNEY

Charging is a concern among new electric vehicle (EV) owners, whether plug-in hybrid or full electric. Fear of inconvenience is one of the biggest barriers to widespread adoption of EVs. You might be concerned that there aren't enough public charging stations in the area.

An EV charging station at home can solve this challenge of inconvenience. EV charging systems at home are safe as long as they're installed correctly.

Evaluating EV charging options

The first thing EV owners should consider is how they will charge their vehicles. A licensed electrician can evaluate your home's EV charging situation, as well as:

- The vehicle's charging capabilities and requirements, which vary depending on the make, model, and type.
- The potential location of the panel and vehicle, including the distance from the panel to the garage, the degree of difficulty to access and whether the garage is attached or detached.
- The capacity and overall condition of your home electrical system to identify any concerns or additional work.

There are two common types of home charging options. Level 1 charging is a

straightforward plug-in of the EV into any standard 120V electrical outlet. This requires no electrical modification, and it normally takes around 14 to 20 hours to fully charge the EV.

Level 2 charging units are sold separately from the vehicle. A licensed electrician must install these units because they plug into a 240V outlet and charge much more quickly, typically in four to eight hours.

Safety considerations

EV chargers are thought to be extremely safe, but we recommend following these fundamental guidelines to reduce potential hazards.

- 1 Select charging equipment that is certified to meet safety standards. Plug Level 1 EV chargers directly into an outlet designed to handle the amperage of the charging device. Never use a multi-plug adapter or extension cord. Charging cables are a tripping hazard, so be aware of the cable's location.
- 2 Purchase a Level 2 charging device that is certified by a nationally recognized testing laboratory. This means the device has gone through rigorous testing and certification by a third-party company with extensive knowledge and pedigree in certifying EV technologies.

- 3 Check with your electric co-op and a licensed electrician before modifying your electrical system or installing a charging station. An electrician will need to make sure your home's wiring complies with local, state and national codes, and may need to obtain a permit before installation.
- 4 Place all charging components out of reach of children when not in use.
- 5 Maintain the components of your charging station according to the manufacturer's guidelines.
- 6 Cover the EV charging station outlet to prevent water exposure. Check the manufacturer's guidelines to make sure it is safe to charge your EV in wet conditions.
- 7 Most charging stations are equipped with safety devices, such as GFCIs, which will identify electrical shorts and stop power to the charger to minimize risks.

Remember to contact your electric co-op before installation. They can answer any questions you have and provide additional information on EV programs and rates.

Jennah Denney writes on consumer and cooperative affairs for the National Rural Electric Cooperative Association.

Many potential buyers see charging availability as a barrier to purchasing an EV.

2023 SHINE THE LIGHT NOMINEES (CONT.)

(Continued from Page 11)

Dennis Slota from Remsen was nominated by **Judy Bunkers of North West Rural Electric Cooperative** for his work with **Remsen St. Mary's Parish**.

Marsha and John Smeltzer from Spirit Lake were nominated by **Rosie Lundquist of Iowa Lakes Electric Cooperative** for their work with **Spirit Lake Protective Association**.

Jeff and Tracy Spear from Hampton were nominated by **Madison Alert of Franklin Rural Electric Cooperative** for their work with **Bridge of Hope North Central Iowa**.

Jan Stadtlander from Manning was nominated by **Tim and Joni Kienast of Western Iowa Power Cooperative** for her work with **IKM-Manning Community School Foundation**.

Jim Stiles (in Memoriam) was nominated by **Ann Williams of Access Energy Cooperative** for his work with **Beyond Limits**.

Kathy Struck from Denison was nominated by **Rita Eggers of Western Iowa Power Cooperative** for her work with **Goodfellows**.

Steve Supple (in Memoriam) from Cascade was nominated by **Al Reiter of Maquoketa Valley Electric Cooperative** for his work with **Camp Courageous of Iowa**.

Betty Thronson from New Hampton was nominated by **Shirley Hoffman of Butler County Rural Electric Cooperative** for her work with **Project Flo**.

Vicki Tronchetti from Jefferson was nominated by **Danille Curtis of Midland Power Cooperative** for her work with **Midwest Mission Distribution Center**.

Elsie Van Beek from Maurice was nominated by **Chris Van Beek of North West Rural Electric Cooperative** for her work with **Midwest Honor Flight**.

Dirk van der Linden from Belmond was nominated by **Linda Loux of Prairie Energy Cooperative** for his work with **New Lyric Theater**.

Jackie Wallace from Mount Vernon was nominated by **Sherry Moffit of T.I.P. Rural Electric Cooperative** for her work with **Miracles in Motion Therapeutic Equestrian Center**.

Andrew Webb from Roland was nominated by **James Hassebrock of Midland Power Cooperative** for his work with **Roland IA Kiwanis**.

Heather Weers from Center Junction was nominated by **Megan Ruley of Maquoketa Valley Electric Cooperative** for her work with **Sleep in Heavenly Peace**.

Teresa Westcott from Cherokee was nominated by **Susan Bakker of Iowa Lakes Electric Cooperative** for her work with **Christian Action, Inc.**

Kimberly Whitaker from Glidden was nominated by **Jeremiah Johnson of Raccoon Valley Electric Cooperative** for her work with **Lil' Wildcat Education Center**.

Jena Wiley from Chariton was nominated by **Tami Adams of Clarke Electric Cooperative, Inc.** for her work with **Almost Home Iowa (Humane Society of North Central Iowa)**.

Diane Wills from Hampton was nominated by **Alice Greimann of Franklin Rural Electric Cooperative** for her work with **West Fork Food Pantry**.

Bobbie Wise from Newell was nominated by **Chris Crotty of Iowa Lakes Electric Cooperative** for her work with **Newell Food Pantry**.

Multiple volunteers from Sheldon were nominated by **Sandra Voss of North West Rural Electric Cooperative** for their work with **Village Treasure Chest**.

LET THERE BE LIGHT

BY DARCY DOUGHERTY MAULSBY

REA Power Plant Museum near Hampton.

When I heard there was going to be a tour of the Rural Electrification Administration (REA) Power Plant Museum near Hampton this summer, I was all in. As I explored the displays in the 85-year-old building, the Delco-Light plant exhibit caught my eye.

The Delco-Light plant was the step between kerosene or gas lighting and electrical lighting. The 32-volt batteries had to be periodically charged by the gas engine.

I'd first heard about this light when I was growing up on my family's farm near Lake City. My dad (who was born in 1937) sometimes mentioned that previous generations of our family used a Delco-Light plant, which included a battery system in the basement of our farmhouse.

A precious resource

I recently did some digging in our local museum's newspaper archives and found a large advertisement for Delco-Light plants in the May 28, 1925, issue of the *Rockwell City Advocate* newspaper.

"Everywhere this new Delco-Light has won an instant welcome," noted the ad, which listed A.N. Reed, Ft. Dodge, Iowa, as the contact. "A month ago, we announced a new Delco-Light electric plant – at a new low price – so inexpensive that it could bring the blessings of electricity to every farm home in America.

Thousands of farmers have found, in this new Delco-Light, the thing they've always wanted – a genuine Delco-Light plant that they could have completely installed on their farms. Thousands of farm women have found the Delco-Light that would lighten their burdens and bring new happiness to their families – all at a very economic cost."

The ad described the 600-watt capacity of the "strong, sturdily built" Delco-Light plant – all for only \$195 (equivalent to roughly \$3,400 today). Plus, "The Delco-Light dealer in your community will install your plant and wire your house for five lights to be located wherever you specify. You will receive with the light plant five beautiful, spun-brass lighting fixtures complete with bulbs."

Since I've always had easy access to electricity throughout our house, garage, barn and machine shed, I can't

imagine having to pick and choose where I'd put those five precious lights.

Bringing electricity to farm families

The ad highlights how valuable and rare electricity was to farm families a century ago. Thomas Hubka addresses this in his fascinating book "How the Working-Class Home Became Modern, 1900-1940." He writes, "The electrification of households nationally improved from approximately 3% in 1900 to 80% in 1940. The 1910s and 1920s are considered the decades of mass electrification for non-rural Americans."

"Non-rural" is the key phrase. By 1930, nearly nine in 10 urban and nonfarm, rural homes had access to electricity, but only about one in 10 American farms did. Everything changed, however, after May 1935, when President Franklin Roosevelt issued an executive order creating the REA.

This order led to the construction of the Hampton-area power plant, which became operational in 1938. That plant was the first to receive a generation-and-transmission loan from the REA and was the first plant west of the Mississippi River to generate electricity for rural areas.

Finally, a major divide between rural and urban (and even small-town) America was closing. As Hubka noted, "Utility networks delivered a product of nearly universal equality. Everyone, rich and poor, is plugged into the same electric network."

No longer would farmers like my family need a Delco-Light plant to power a few lightbulbs. Ironically, the Hampton-area plant (which is now a substation) includes a modern battery system that will kick in during peak usage times. That's the interesting thing about history, isn't it? Sometimes, what's old is new again.
